OSCUIUM

With WiPry Clarity hardware, Chanalyzer 6 users will have visibility into all three Wi-Fi bands: 2.4 GHz, 5 GHz, and the newest band, 6 GHz (also known as Wi-Fi 6e). With WiPry Clarity, you can pinpoint the source of interference and get the most out of your WLAN, regardless of the complexity of your environment.

Powerful

WiPry Clarity has a frequency range of 2.2 GHz - 7.25 GHz, which gives you sharp visibility into all three Wi-Fi bands.

Rugged

The WiPry Clarity hardware is enclosed in a lightweight but sturdy aluminum case, and ships with a rugged zipper box.

Portable

Wi-Fi is everywhere. WiPry Clarity's small form factor makes it easy to bring along to site visits.
