

Weatherproof 14" x 10" x 4" Wireless Enclosure for INDOOR use, Vented with 120 VAC Power Modules

Model: NBP141004-10V

Applications and Features

- Features:**
- Compact Weatherproof Molded ABS Enclosure
 - Fully gasketed padlockable raised lid, Vented for Indoor Convection Cooling
 - NEMA Type 3R, 3RX / IP24 rated
 - Removable 120 VAC power module
 - Heavy duty hook-and-loop tape for mounting equipment in enclosure
- Applications:**
- Remote Wireless LAN WiFi equipment installations
 - Indoor installations
 - Rapid Deployment Installations
 - Corrosive environments & hotspot applications
 - Protection of equipment from theft or damage

Vented Lid

120 VAC Power Panel

Model: NBP141004-10V

Product Description

Secure your wireless equipment...

Remote wireless equipment such as access points, routers and bridges often are more vulnerable to tampering and theft. This can disrupt and even cripple critical communications. A low cost solution for protecting and securing your wireless equipment is the NBP141004-10V. This rugged, molded composite enclosure is ideal for indoor applications requiring equipment cooling air. The compact size of this enclosure makes it ideal for locations with limited space requirements such as equipment closets or mobile applications. Also due to its size, the NBP141004-10V can be used where aesthetics are important, such as in offices and in public areas requiring HotSpots.

The 10.5" x 9.5" x 4" (266 x 241 x 101 mm) compartment features a removable 120 VAC power module with an installed duplex socket. Power and Data Cables have access to the inside of the enclosure via three rubber cable glands located on the bottom. Equipment can be mounted inside the enclosure by using the included hook-and-loop tape. The raised lid features a continuous gasket and a quick release latch with provisions for a padlock. The enclosure material is molded UV stabilized ABS. Three gasketed mounting holes are provided inside the enclosure for easy installations.

Specifications

Model	NBP141004-10V
Power Module Voltage	120 VAC Power Module Panel
Enclosure Material	Molded UV Stabilized ABS
Enclosure Color	Gray
Weight	4.2 lbs (1.9 kg)
Outside Dimensions (max)	14.5 x 10.8 x 4.3 inches (36.8 x 27.4 x 10.9 cm)
Inside Dimensions	10.5 x 9.5 x 4 inches (26.6 x 24.1 x 10.1 cm)
Cable Feed	(3) 9/16" (14.2mm) Rubber Cable Glands
Ratings	NEMA 3R, 3RX / IP24
